

DCT300

BATTERY-POWERED ELECTRIC VEHICLE ON CRAWLERS
FOR LOADS UP TO 450 KG

ZERO EMISSIONS

QUIET

LOW MAINTENANCE

**Designed to meet
challenging ground
conditions**

Compact

**Speed switch to
operate in narrow
spaces**

**Set up for different
accessory types**

MADE IN ITALY

The DCT-300 is an electric vehicle extremely effective in building sites and indoors, in tunnels or underground, in the vineyards or orchards and in places where tracked traction and zero emission are essential. The version "Performance", with special motors and drivers, allows the best benefits during the work and grants bigger autonomy (product image with 220 lt. skip and hydraulic tipping, not included in the basic version).

FEATURES

Equipment body	On crawlers
Driving control type	Driving tower
Accelerator	2 Joysticks
Battery charger	External with charge status information
Dashboard display	Remaining battery charge Equipment failures Hour meter
Parking brake	Electromagnetic
AGM batteries	4x 12V/114 Ah C20 (4x12 V/85 Ah C20 DCT 300 Performance)
Electric motor	2x24V/1300 watt SE S 2 30 MIN (2x48V/1500 watt AC S2 60 MIN DCT 300 Performance)
Product net weight	387 kg

PERFORMANCE

Loading capacity on flat surface	450 kg
Max gradient	30%
Max lateral gradient	20%
Forward speed	
Fast	4,5 Km/h
Slow	2,3 Km/h
Reverse speed	
Fast	4,5 Km/h
Slow	2,3 Km/h
Battery recharging time	8 hours

Features shown are subject to change without notice

ACCESSORIES

220 lt. skip with Hydraulic pump

Wired control

Lawn mower
